FAQ

Math Contest Application Guide

1. First, register as a member on the website.
2. Select the test you want to take and pay..
3. You must take the test within the allotted time on the day of the test.
4. The test time is automatically monitored, and when time runs out, the test sheet will close.
5. When the start key for the test is pressed, the camera supervision function will automatically be activated.

2

Regulations

(1) Taking the test

1. Taking the test

1. It is possible to take the level appropriate to the student's grade level or take a higher-level test, but it is not possible to take a test at a level lower than the student's grade level. For testple:
Students who are currently in the 11th grade can take the test at Level 11 and Level 12, but they cannot take the test at Level 9 and Level 10.
2. Students taking tests online must have the camera supervision function enabled. The camera supervision system will precisely supervise the behavior of test takers.

2. Regulations: Cheating

1. It is possible to take the level appropriate to the student's grade level or take a higher-level test, but it is not possible to take a test at a level lower than the student's grade level. For testple:
Students who are currently in the 11th grade can take the test at Level 11 and Level 12, but they cannot take the test at Level 9 and Level 10.

The image shows a grid of website content blocks. The top row contains four colored boxes: orange with a briefcase icon labeled 'Regulations', white with a lightbulb icon labeled 'Research Paper', dark blue with a screen icon labeled 'Test Guide', and light blue with a location pin icon labeled 'About the Award'. The bottom row contains three blocks: a dark blue 'OFF-Line Test' block with text 'Your child's math skills Where are you now? Check it out right now!' and a 'go' button; a grey 'Notice' block with a list of four items and dates; and a white 'Contact Email' block with text 'We will be happy to assist you via email.' and a 'go' button.
