The background features a complex technical drawing in white lines on a dark blue gradient. The drawing includes a large ship hull at the top, a detailed engine block with various parts labeled with numbers (01, 02, 03, 04, 05, 06, 17, 17.1, 17.2, 15.1) in the middle, and a propeller at the bottom left. The overall aesthetic is that of a technical manual or engineering blueprint.

# TRANSPORT OF THE FUTURE

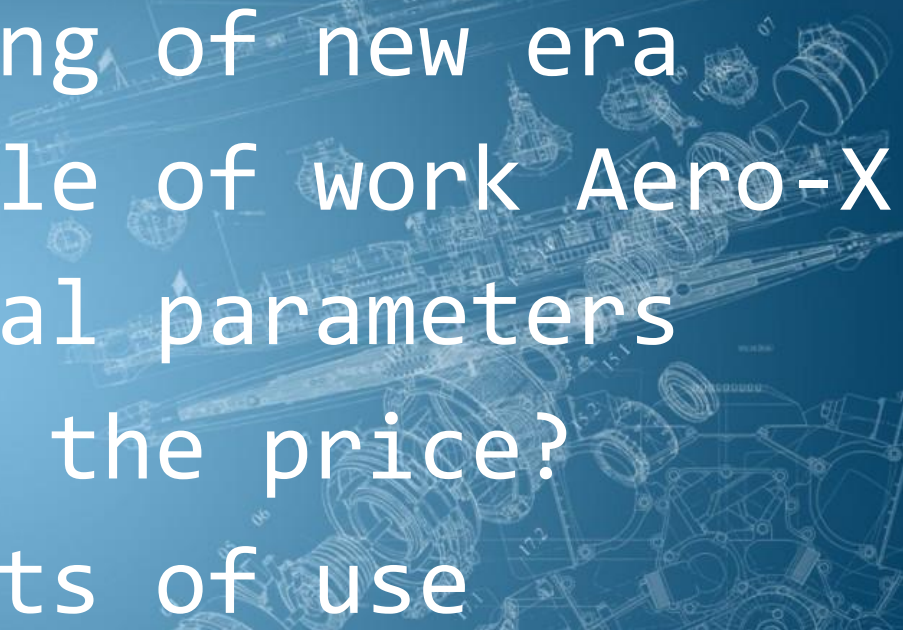

made by Danilov Dmitry  
ISC7-31

# HOVERBIKE

# Contents

- 1. Beginning of new era
  - 2. Principle of work Aero-X
  - 3. Technical parameters
  - 4. What is the price?
  - 5. Prospects of use
- 
- A detailed technical drawing of an Aero-X engine, showing various components like the compressor, turbine, and exhaust system, overlaid on a blue background.

# Beginning of new era

- 1. Threshold of a new era
- 2. Replace with new
- 3. Constant progress
- 4. Future model Aero-X

# Principle of operation

- 1. Like a bike
- 2. Effect of air cushion
- 3. Gyroscope and sensors

# Technical parameters

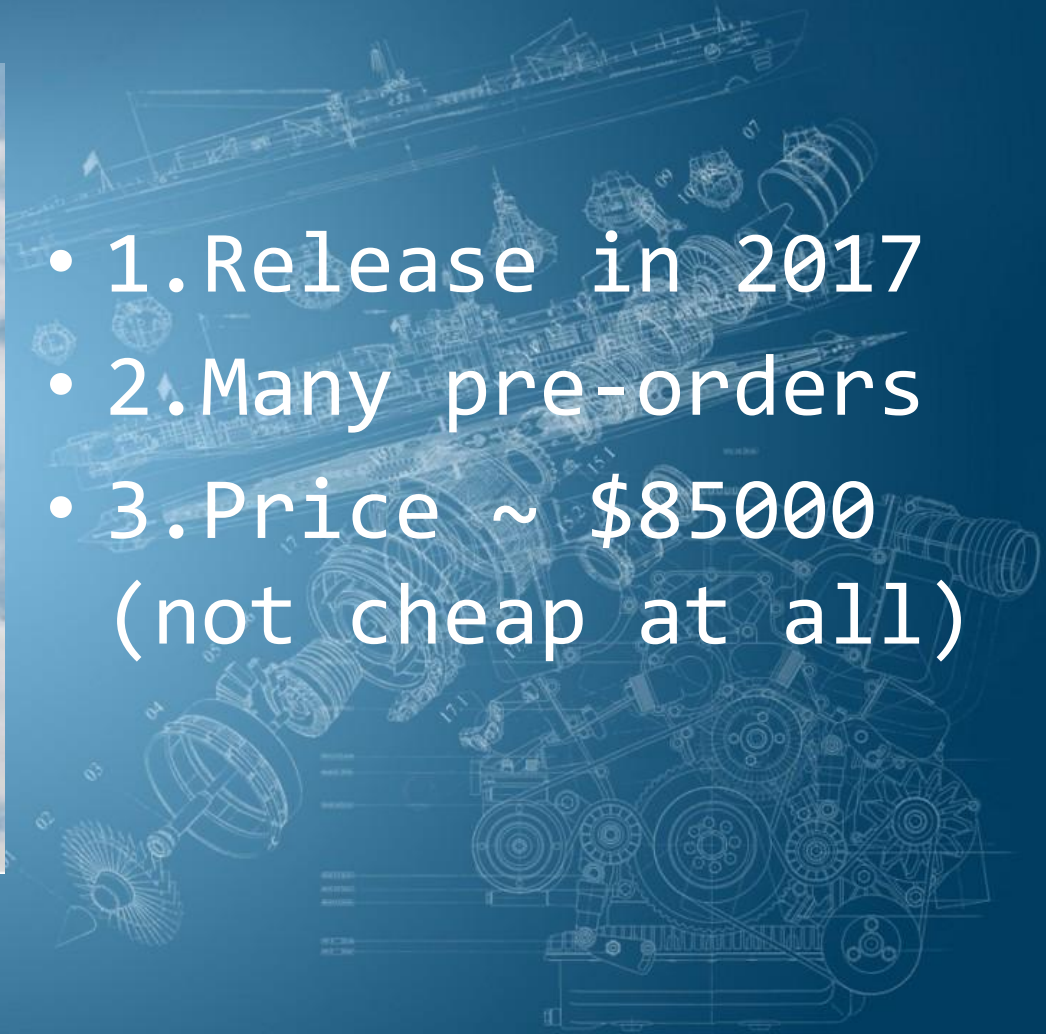

- 1. Max speed 72 km/h
- 2. Max height 3m
- 3. Two people on board
- 4. ~1 hour duration flight

# What is the price?

- 1. Release in 2017
- 2. Many pre-orders
- 3. Price ~ \$85000  
(not cheap at all)

# Prospects of use

- 1. Go anywhere
- 2. Easy control
- 3. Quick adaptation
- 4. Seems cool

**THANK YOU FOR YOUR  
ATTANTION!**
