european film & culture
festival in Russia

July 8th to 10th

2016

screenings / roundtables / education /
concerts / picnic / expos / theater

VOICES - a long tradition of international and intercultural dialog

HISTORY

VOICES was founded in 2010 as Russia's only Europe-focused film festival, and has since become a trademark of Russian intercultural hospitality.

French company Globale together with local authorities are opening this ancient land's doors to great filmmakers, thinkers and musicians since 7 years.

Claudia Cardinale, Julie Gayet, Paolo Taviani, Hugh Hudson... Tens of high-level filmmakers have visited Vologda, together with dozens of young filmmakers who just start their journey.

Now, it's time for you to come as well!

VOICES - new films from the new generation of filmmakers,
and grand classics from the experiences maestros

SCREENINGS

In 2016, VOICES has a program that is limited in time but not in quality. In three days, tens of screenings, audience award for the 6-film competition, three scenes to show feature films, documentaries, short movies... Everything to please the most exquisite cinema taste.

VOICES - the knowledge about culture and cinema has to be spread to prevent conflicts between nations

ROUNDTABLES

Every year VOICES offers its audience an opportunity to learn something new about cinema.

In 2016, we continue with this endeavor: summer school of filmmaking, interesting master classes and surprises await!

VOICES makes locals and visitors rediscover the ancient town of Vologda

PICNIC

Two days of fun and good vibes at our VOICES Picnic: hammocks, ice cream, music, lectures, games, shops, free wifi... Everything you need to relax and feel the love of the town of Vologda.

This year, our Picnic will be open on the 9th and on the 10th of July.

VOICES knows how to take care of its guests

WELCOME!

Join tens of thousands of visitors of VOICES to discover the atmosphere of Russia's most stylish film event.
