

The background of the image is a dark, textured collage of various citrus fruit slices, including oranges, lemons, and grapefruits, arranged in a somewhat circular pattern. The slices are slightly out of focus, creating a sense of depth and texture. The colors are muted due to the dark background, but the characteristic segments and rinds of the fruits are still visible.

Battle of Orange, Italy

During Carnevale d'Ivrea in Italy before Lent, real orange fights are staged. Perhaps someone will say that this is a vain translation of products, but Italians are unlikely to agree with this.

why tangerines eat for the new year?

- In markets and supermarkets, bright orange fruits bloom with sun flare. Ripening in late November and early December, these representatives of citrus fruits are an indispensable decoration of the New Year's table of Russians.

why do Russians drink lemon tea?

Adding a slice of lemon to tea "for flavor" is an action that pursues aesthetic rather than taste goals. This slice should be very thin. It is better to drink such tea without sugar, enjoying the nuances of aroma and taste that lemon brings to the drink.
