

# Ромбовидный мозг Продолговатый мозг, Мост,

Рисунки Зимина М.А.

Fig. 2. ENCEPHALON I.  
(aspectus lateralis dext.)

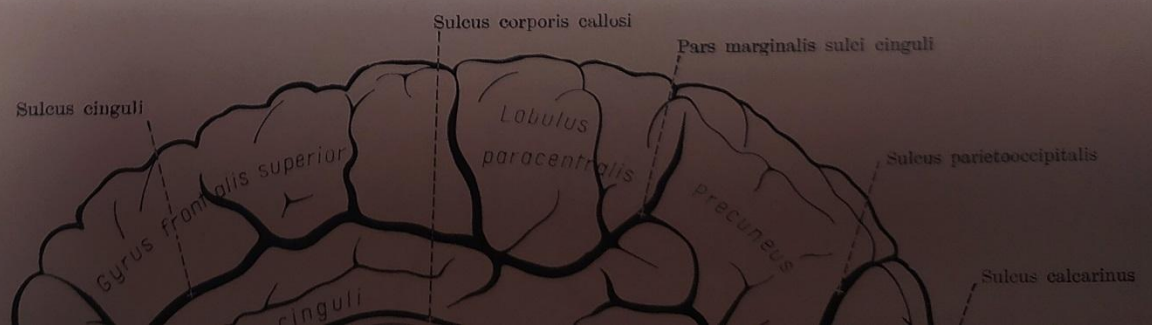

Fig. 4. ENCEPHALON II.  
(sectio sagittalis, aspectus medialis, 1. dext.)

Fig. 4. ENCEPHALON II.  
(sectio sagittalis, aspectus medialis, l. dext.)

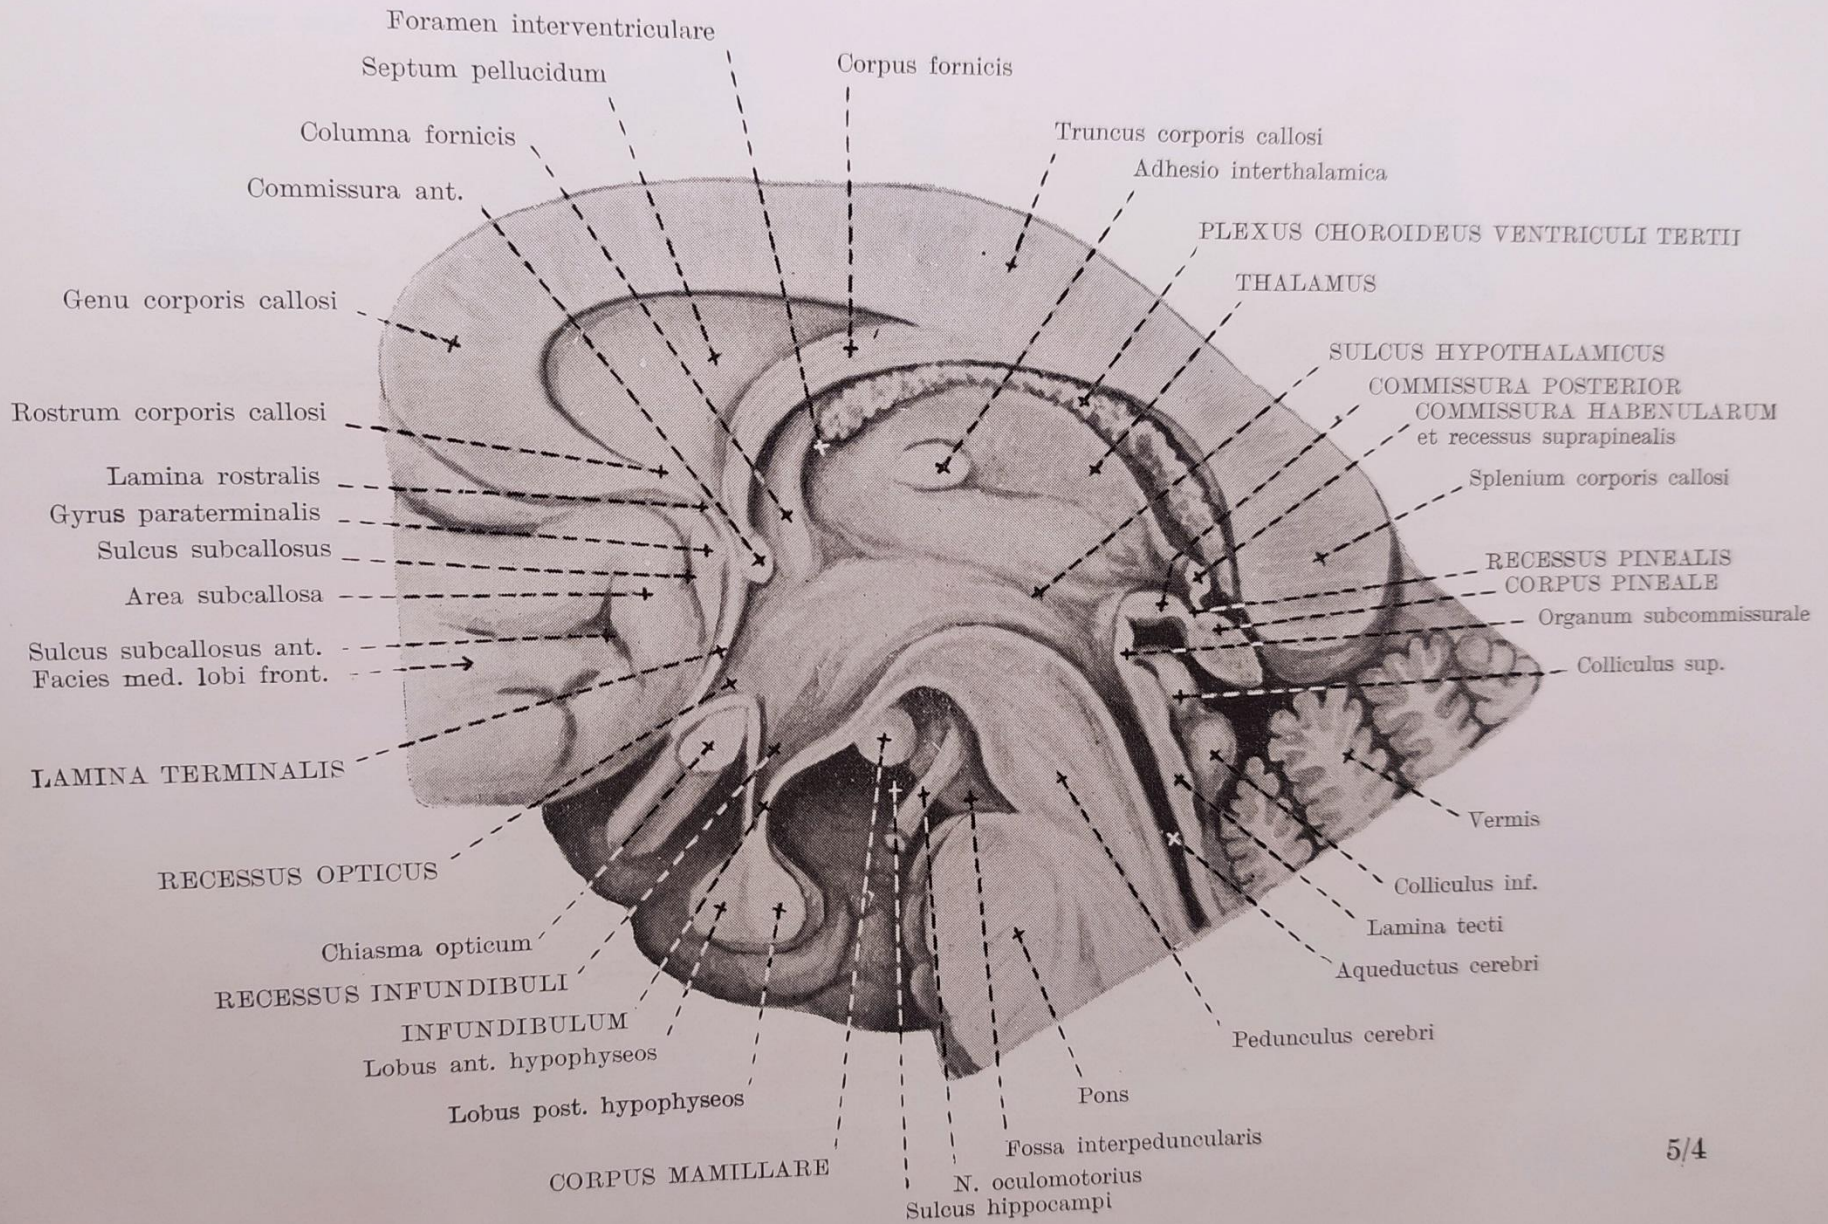

Fig. 5. SULCI ET GYRI CEREBRI II.  
 (facies medialis hemispherii, sectio sagittalis encephali)

Fig. 27. CEREBELLUM I.  
 (vermis et facies superiores hemispheriorum, aspectus superior)

Fig. 29. CEREBELLUM III.  
(vermis et hemispherii, aspectus anterior)

Fig. 33. CEREBELLUM VII.

(nuclei cerebelli, sectio transversalis obliqua, aspectus superior)

Fig. 34. MYELENCEPHALON

(medulla oblongata)

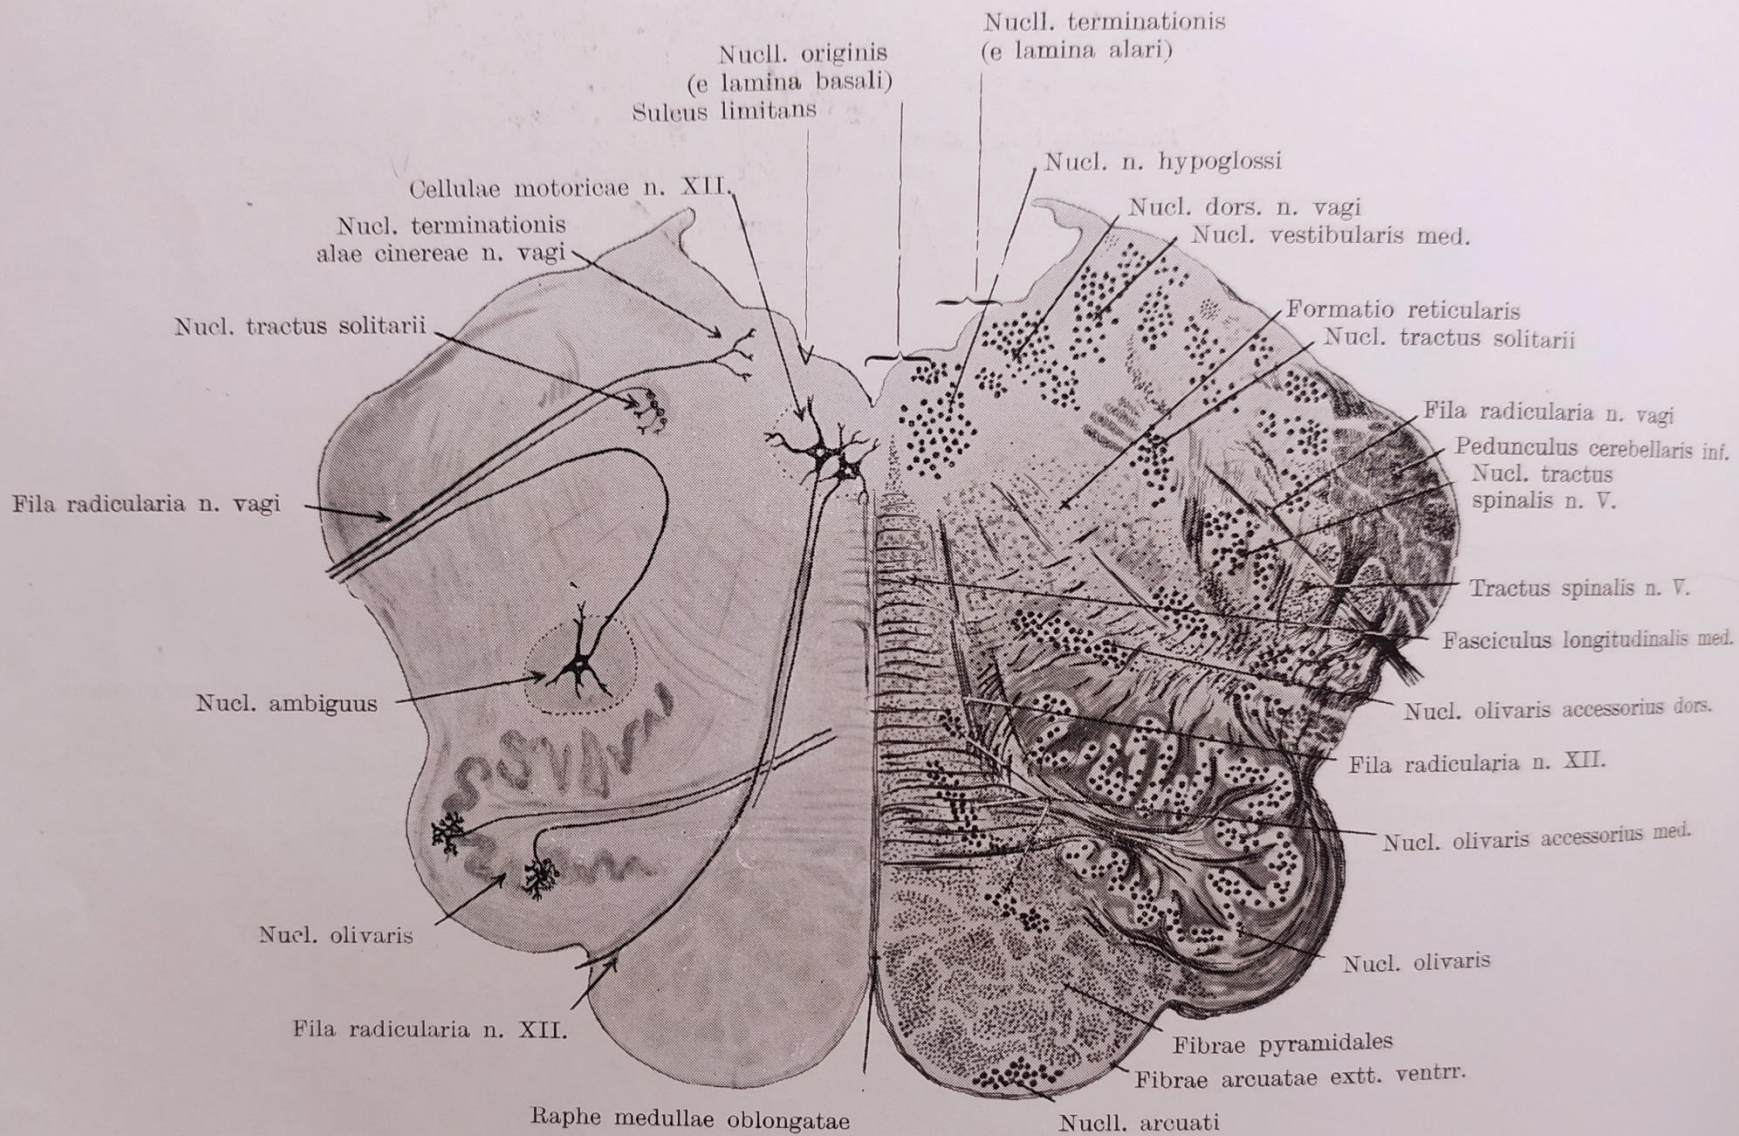

Fig. 54. SECTIO TRANSVERSA MEDULLAE OBLONGATAE II.  
 (pars media, cyto- et myeloarchitecturae)

Fig. 80. MENINGES ENCEPHALI ET CISTERNAE SUBARACHNOIDEALES  
 (sectio sagittalis paramediana)

Fig. 80. MENINGES ENCEPHALI ET CISTERNAE SUBARACHNOIDEALES  
 (sectio sagittalis paramediana)

Fig. 80. MENINGES ENCEPHALI ET CISTERNAE SUBARACHNOIDEALES  
 (sectio sagittalis paramediana)
