In my room two beds, one workspace , one wardrobe, TV and a computer.

I think that this room is very suitable for the ordinary student, because it will be very comfortable and cozy

My workplace is located near a window, a bed located on the Northern app Suite, the TV set weighs on my wall, my PC is in the workplace.

Yes, my working place is very convenient and comfortable, because all the textbooks and notebooks are in its place and in my workplace there is nothing extra when I work on it

In my room hranyatsya old books of different authors. I think for the ideal with most importantly a comfortable atmosphere, if the atmosphere is very good
