Давайте нарисуе м ланьыш

Цветёт он майскою порой,
Его найдёшь в тени лесной:
На стебельке, как бусы в ряд,
Цветы душистые висят.

Конечно, это – ландыш. Давайте попробуем нарисовать ландыш, один из первых весенних цветов.

Нарисуйте три основы стебелька.

Затем два листика.

Делаем стебли объемными и на нижнем рисуем
веточки, которые держат цветы ландыша.

Рисуем шапочки цветков, а на конце нижней ветки — бутоны.

Прорисовываем нижнюю часть, у некоторых -
пестик.

На кончиках стеблей рисуем бутоны, потом веточки и основу цветков.

Рисуем загнутые стороны листиков и
дорисовываем цветки.

Стираем все лишние линии.

Ландыш готов! Беремся за краски.
