

Profile of village of Tishenskoye

The work was performed by a
student of 11th grade
Nazarova Kseniya.

- 
- I think when I came home after a long absence in the village, I would have noticed the silence on our streets, the trees and the beauty.

- Our village is beautiful, here it is quiet and peaceful. I took this photo this morning on my way to school. It came out very atmospheric.

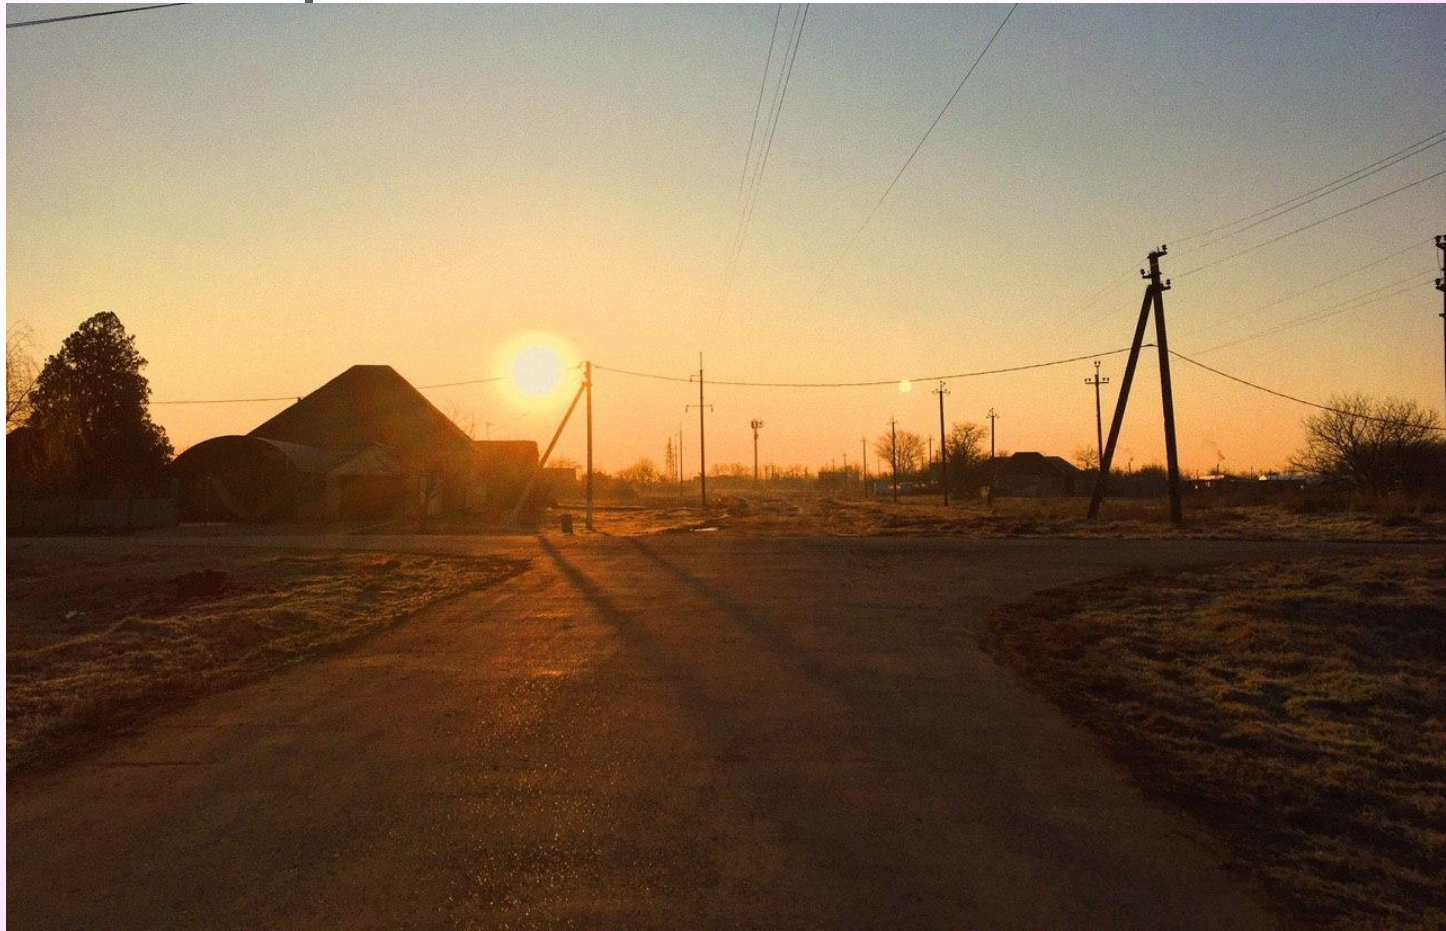

- Our village is small, there are a little more than 3000 people living here, and other villages and towns are located nearby.

It is beautiful here, the roads are
different in different places.

There are beautiful open places where you
can see a wonderful sunset

- In their free time, people can walk or go to the stadium. You can also be on the alley or Playground.

- Our work is trade work on the field, the occupation of the economic activity.

We are have a beautiful school 😊

- We have almost no attractions, and some people may find our village boring, but it is quite good here.

There are no great difficulties of life here

- I like the peace of this place. in the evenings, you can enjoy peace here. But sometimes I get bored here and I would like to move to a more lively place.

- Thanks for your attention)
