When all of the Chaos Emeralds have been gathered, Sonic must defeat the level boss.

- Watch out for lights and arrows showing important spots and routes in your surroundings.
- Catch Sonic on the flippers by holding them up as he enters the Alley Ramp. This way you can aim him more accurately.
- To shoot straight up, fire when Sonic is near the hinge of a flipper. To launch at an angle, let him roll towards the tip first.
- When Sonic is in flight, press the D-button left and right to position Sonic based on the surrounding objects such as bumpers, targets, lances and flippers.
- Keep an eye on your status display (top section of the screen) for real-time hints!

Having one can keep you alive when you are damaged. Collect 100 or 200 to earn an extra life.

Super Ring

Gives you 10 Rings at once.

Invincibility

Protects you from enemies and most traps for a short period of time.

Power Sneakers

Increases your speed for a short period of time.

Red Shield

Protects you from fire attacks but disappears when struck by a normal attack.

Blue Shield

Allows you to run across electric floors but disappears when you are hit by an enemy attack.

Gold Shield

Protects you from one normal attack and allows Sonic to use the Blast Attack.

Gives you one extra life.

Collect ten of these to earn a Continue.

DIMENSION RINGS

If you have Flickies following you, take them to the Dimension Ring to transport them to a safer place. Five Flickies can be freed per Dimension Ring, and once the work is completed in that area, a portal located under the Dimension Ring will be made accessible to advance the game.

You will be able to travel freely between unlocked areas in an Act. The final Dimension Ring will have a cross in the portal beneath it. Rescue and bring all the Flickies to the final Dimension Ring to complete the Act.

SPECIAL STAGES

Chaos Emeralds are collected when you successfully clear the Special Stages. If you have 50 Rings or more, find Tails or Knuckles who will be standing by somewhere in the Act. Once they collect all of your Gold Rings, you will be transported to the Special Stage.

Grab as many Rings as you can in order to advance to the next section of the stage and to finally earn the Chaos Emerald. The stage will end before you've reached the goal (Chaos Emerald) if you fail to collect the required number of Rings for each checkpoint, or touch the spiky metal balls with no Rings in possession. When the Special Stage is over, you will return to the Act and carry on from where you found Tails or Knuckles.

BOSS STAGES

Sonic will face Dr. Eggman in the third Act of every Zone. As usual, he will be equipped with one of his many contraptions. It will require several attacks (he flashes when he is damaged) to defeat Dr. Eggman, so quickly learn his offensive moves, and strike back by performing a **Spin Attack** when he is vulnerable. Note that you will start the battle without any Rings, so your priority is to pick up at least one Ring to stay alive. When you beat him in each Act, you will advance to the next Zone. If you defeat him in the final Zone with all the Chaos Emeralds in your possession, you will be able to play the Final Fight Zone.
