Чаще всего разговорные тексты построены на аутентичных высказываниях английских школьников и отражают их самые различные точки зрения на предмет обсуждения. ¶

Сопутствующей задачей на уроке совершенствования речевых навыков служит развитие умения читать или аудировать. Поскольку чтение и аудирование как рецептивные виды деятельности требуют усвоения большего количества слов, этот этап вносит свою лепту (хотя и небольшую) в расширение рецептивного словаря учащихся за счёт включения в каждый текст по два — четыре незнакомых слова, которые не мещают общему пониманию содержания (а главное, смысла текста). Значение этих слов может быть понято по догадке, Автоматизации эти слова не подлежат. ¶

Третий этап обеспечивает развитие умения общаться в целом и охватывает уроки 5—7. Работа на данном этапе характеризуется либо наличием разного вида содержательных или смысловых опор, либо их отсутствием, а также более высоким уровнем сложности ред чемыслительных задач, большей новизной ситуаций, большим охватом привлекаемого материала. На уроке 5 происходит развитие диалогической формы общения, на уроке 7 учащиеся работают над каким-либо собственным проектом.

- Цикл уроков для обучения говорению базируется на трёх этапах овладения материалом: этап формирования навыков, этап совершенствования навыков, этап развития умения.
- Первый этап охватывает два-три урока цикла. Каждый цикл состоит из одного лексического и одного-двух грамматических уроков. Главная задача первого этапа формирование лексических и грамматических навыков говорения.
- Предъявление нового материала происходит на основе сочетания зрительного образа со слуховым. Зрительное восприятие и внутреннее проговаривание читаемого, а также соотнесение формальной и смысловой сторон благодаря имитации обеспечивает слухоречедвигательный и речезрительный синтез. Формирование грамматических и лексических навыков говорения осуществляется в упражнениях, включающих такие действия, как поиск, выбор, комбинирование, опline рансформация.

Второй этап охватывает четвёртый урок каждого цикла, который преследует цель совершенствования речевых навыков на основе целенаправленного и управляемого комбинирования и трансформации материала, усвоенного ранее. Совершенствование речевых навыков осуществляется на разговорных текстах, предъявляемых зрительно или аудитивно. Здесь возможны варианты: один текст зрительно, другой на слух, либо один и тот же текст и зрительно, и на слух, но с разными речевыми задачами. 1) Are Kate's and David's opinions on taking part-time! jobs similar or different? (listening for the main idea)

2) What are the advantages of a part-time job? What are the disadvantages? What do Kate and David say?

Some adults ask if schoolchildren should have jobs. I say yes, they should. Some people worry that teens with after-school jobs will not find time for homework. Actually, having a job helps teens to organise their time. The biggest reason why teens should be allowed to work is because it is a good way of earning money. You value things more if you are financially responsible for them.

to earn money to save money for college to get practical experience to get necessary skills to have a sense of independence

# Do you work during your summer holidays?

- Emma Barton prefers to get work experience while studying at school. She writes about her experience in her letters.
- 1) Look at three Emma's letters on pp. 130-132 and decide which type each of them belongs to.

· a CV

· a letter of application

· a personal letter

Dear Maria,

Thanks for your letter. I'm glad to hear that everything is going well. I'm sorry I haven't written for so long but I've been really busy looking out for a summer job.

You asked me about my plans for summer holidays. Well, now I'm working in a camp shop. I'm glad that I've got this job, because I've always wanted to be in a 'people' type of job. I like meeting new people, helping and talking to them. I think that working at the camp helps me to learn how to be responsible for a lot of different things. If people complain, I know how to deal with them. I'm getting lots of valuable practical experience that may be useful for the future. As you know, I want to go on to study business and law at university. One of my favourite parts of working is belonging to a team and meeting people from lots of different places. I'm usually at work from about 9 a.m. until 5 p.m. and I check people in1 and serve holidaymakers. I enjoy working at the camp - everyone knows who I am and I know them!

Do you work during the holiday season? Will this job help you in your future career? Are summer jobs popular with teenagers in your country?

Write back soon.

Love. Emma

#### The Perfect Tree

by Debra W. Hingley

inally, that day came to buy the perfect Christmas tree. I got into my car to find the Christmas tree. (1) \_\_\_\_\_ I began to think what stories the trees might tell. I got out of my car and began to walk around, but I wasn't choosing that perfect tree. I saw a man near me, he was looking at a branch on a tree and laughing. The branch was longer than the others. I stopped to listen to what he was saying, "Look at this tree! It is only good for the fire." I looked at the tree and said, "But did you think that maybe that branch was special? A bird might sit on it." The man looked at me, small tears2 were in his eyes. He smiled and said, "You know you are right, it is the perfect Christmas tree. It will be nice to see my daughter's smile when she runs to the tree on Christmas morning. (2) \_\_\_\_\_ " I smiled and went on my way. Then I saw a mother with her children. (3) \_\_\_\_\_ They were laughing at the stranges little tree, too. I stopped and asked them, "What is funny about this little tree?" One of the boys answered with a laugh, "Two trees have wrapped around each other." I looked at his mother and said, "Maybe one of the trees was very small, and the other tree had to help his brother." The little boys were looking at the tree. Their mother then turned to me and said, "This tree is beautiful. It is just like my sons. (4) \_\_\_\_\_ When one falls' down, the other catches him." And she bought that tree. During the Christmas holiday, when we are decorating our trees, think about all the stories that these trees may tell because they are all perfect in nature's eyes.
