

How to begin a programmer?

The presentation was prepared by Andrew Gabzovskiy

Programming is -

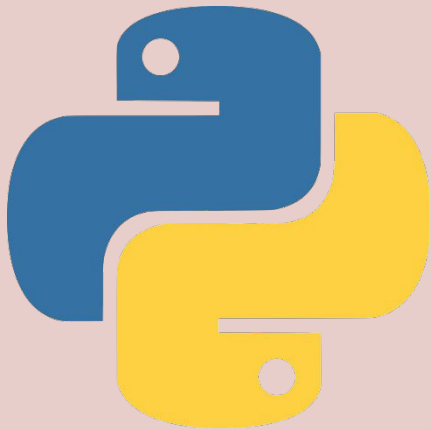

the process of creating a set of instructions that tell a computer how to perform a task.

```
tempString = tempString.replace("czDw",  
    value*pow(10,14-tmpFormat))) tempString =  
    if(typeOfID == "BUFFER"): s = value dataCal  
        tempString.replace("czFieldID",str(key)) temp  
        if(typeOfID == "ASCII_STRING"): s = value d  
            buffer") tempString = tempString.replace("czDw"  
                if "clave value=" in line and flagCheckRi  
                    up(I) if "</Message>" in line: myEvent = "RT  
                        -onlyFilename+"\n" if typeOfFile  
                            If not os.path.exists(  
                                h.exists(f
```

What do you need to become a programmer?

- Aspiration
- Basic knowledge of math
- Phenomenal perseverance
- Love your computer

TOP SECRET

Programming skills is a

skills.

Thank you for attention

Good luck and remember: “Any fool can write code that a computer can understand.
Good programmers write code that humans can understand.”
