Колесников Н.С.

# BRITISH SCIENCE AND TECHNOLOGY

in the second half of the  
20th century and today

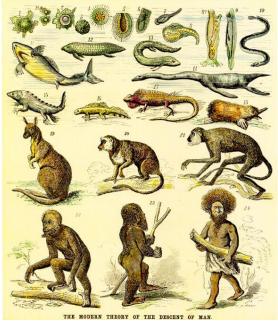

# INTRODUCTION

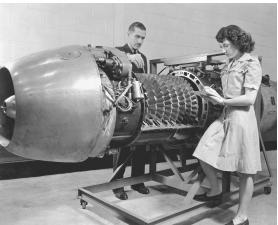

laws of motion and  
illumination of  
gravity

the steam locomotive

theory  
of evolution by natural  
selection

the jet engine

the structure of DNA

the World Wide Web

Most of the attention in the UK is traditionally paid to natural and technical sciences.

# TODAY

More than 70 British scientists  
have been awarded Nobel Prizes

About 4.5% of global spending  
on science is done

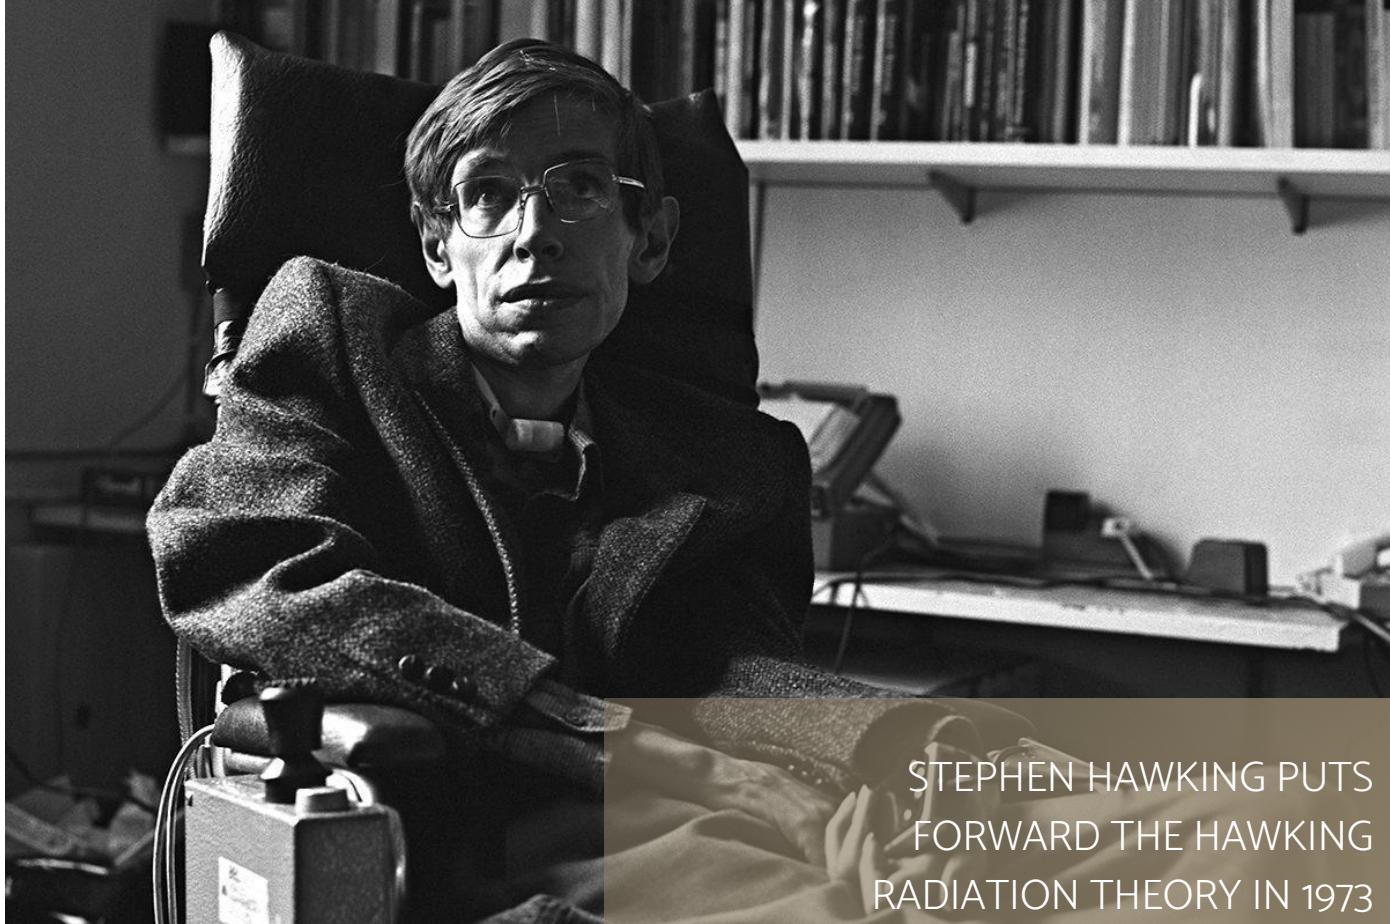

8% of all scientific publications  
in the world.

# *scientific and technical figure*

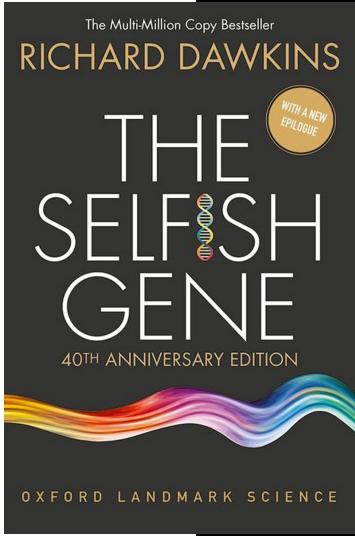

FRANCIS CRICK AND JAMES  
WATSON DISCOVERED THE  
DOUBLE HELIX OF DNA IN 1953

# *scientific and technical figure*

STEPHEN HAWKING PUTS FORWARD THE HAWKING RADIATION THEORY IN 1973

IN 1976, THE BOOK "THE SELFISH GENE" WAS FIRST PUBLISHED. IT WAS WRITTEN BY RICHARD DAWKINS
