Welcome to Daily ESL!

One of the best ways to improve communication skills is to become familiar with the language by reading, building vocabulary, and discussing what you study in daily conversations. Too often, ESL/EFL students spend time reading about topics that they normally wouldn't use in daily conversation. This site presents short conversation starters or readings that you can study and then try to apply in everyday situations

Before anything else, be sure to read the page, [Using This Site](#), to understand the purpose of these materials and how to best use them. The table below outlines current and future topics. Those with links are now available. Write me if you have an idea for a new reading topic.
