Chinese food is famous all over the world. Chinese cuisine has countless delicious and fantastic dishes. Ingredients of Chinese food are various and sometimes shocking to foreigners. Chinese cuisine varies even across China. There are many regional cuisines with different flavors: spicy, sweet, sour. China has its own unique dining culture and etiquette, which foreign visitors may find quite different from what they are used to. Chinese use chopsticks to pick up food, not knives and forks. There are usually not salt or pepper shakers, or tomato sauce on the table, but you may find bottles of soy sauce, vinegar, and chili paste on the table. Some Chinese restaurant can be quite noisy and smoky where people don't control their talking volume or smoking. Tips are not expected in Chinese restaurant, as the service fee is included in the food price.

Why do cats purr? Humans tend to think that purring is a sign of happiness in a cat, but there are other reasons why our pets produce these particular sounds. Purring is a habit that develops very early in a cat's life. The most usual time for purring is in company. It can be a sign of social pleasure. Moreover, it can mean that the cat is asking to be fed or stroked.

Strangely, vets also report that cats will purr when they are in great pain or even before death. It is not good to show weakness as this could encourage larger animals to eat you. The purr may just mean: «Everything's fine, I'm on top of the world. Nothing to see here, go away please».
