

The height of this volcano is 3718m

The Teide volcano

Teide is the most visited natural wonder of Spain, also the most visited national park in Spain and Europe

the teide volcano is located on Tenerife island, Canary islands

Mount Teide has the world's largest cone-shaped shadow

cone-shaped* - конусообразный

Teide may erupt again one day!

It's the fourth tallest volcano in the world

In 2004 and 2005 there were periods when a series of smaller (magnitude 1-3) earthquakes were observed around Mount Teide, as well as increased volcanic activity such as gas emissions.

it is geologically a rather young volcano at just 200,000 years old

magnitude* - величина

gas emissions* -

выбросы газа
