

Semyon Moiseevich Aisenstein

Semyon Moiseevich Aisenstein is a pioneer of radio engineering in Russia, Ukraine, Poland and England. Founder and head of the plant "Russian Society of Wireless Telephones and Telegraphs". Since 1914, he was able to create the first Russian radio tubes. Semyon Eisenstein was repeatedly arrested by the Soviet authorities and, eventually, in 1922, illegally emigrated to England.

Snow leopard

The snow leopard is a mammal from the feline family. The body length of the snow leopard reaches 110-125 cm, weight - 20-40 kg. The overall color tone of the back and sides of the body is grayish-smoky, sometimes slightly yellowish.

Sheregesh

I would like to visit the ski resort "sheregesh" and go snowboarding there. Sheregesh this is a ski resort located 5 km from the village of the same name in the Kemerovo region. The sports complex was opened in 1981 and was built for the purpose of holding the Spartakiad of the Peoples of the RSFSR. Since the early 2000s, Sheregesh has been known as a ski resort and is constantly developing.

I would like to become a surgeon after school . This is a very good and responsible profession, it saves people's lives because of the advantages of very high wages, there are opportunities for professional growth, respect from colleagues and patients.

I really like khinkali with sauce. You can use store-bought ones, but you can make homemade ones. It's very simple to cook them like dumplings, just put them to cook for 30-40 minutes and the sauce is purchased, it's a little spicy but very tasty

I want to watch the movie Matrix
Resurrection. I have previously watched
the previous parts of the film, I really liked
this movie where the main character got
into a non-existent reality and he does
everything possible to get out and restore
the whole world
