ABOUT MY EDUCATION

Degree	Year	University/school
Diploma in Telecommunication Technologies	9/2014-7/2018	SPbSUT(Saint-Petersburg State University of Telecommunications)
Education Certificate About ending 11 classes	9/2013-7/2014	School №375

PROJECTS DURING STUDY

Big Data is a phrase used to mean a massive volume of both structured and unstructured data that is so large it is difficult to process using traditional database and software techniques.

From a security perspective, there are two distinct issues: securing the organization and its customers' information in a Big Data context; and using Big Data techniques to analyse, and even predict, security incidents.

WHAT AM I DOING NOW?

- **Now I am looking for methods to introduce these technologies;**
- **Creating my own stand based on a Linux server for data processing;**

MY WORK

- At the moment, I work for the "Sauber Bank" as the information security specialist and my responsibilities include physical and software security,
as well as setting up network equipment.

Thanks for watching
